EXPERIENCE

Bachelor Student in Computer Science

Gisma University of Applied Sciences!

April 2025 – Ongoing

Berlin, Germany

- Joined the institution during the April intake 2025 with a goal of acquiring a Bachelor Degree in Computer Science.
- Acquired simple critical thinking skills, problem solving skills, computational skills, software development skills, project management skills and open academic research and writing skills from this modules.
- Developed a group project involving the Menu Expansion and Localization Project based on McDonald's to be supplied all over vast countries in the whole world e.g Kenya, Somalia, Uganda and many more.

High School Student

Moi High School Kabarak

Aug 2021 – Nov 2024

Nakuru, Kenya.

- Was exposed to challenges and how to deal with them accordingly.
- Became more knowledgeable due to exposed examinations and tests.
- Became disciplined and monitored to be a good disciplined adult.
- Taught life skills, adapting skills and decision making skills.

Primary School Student

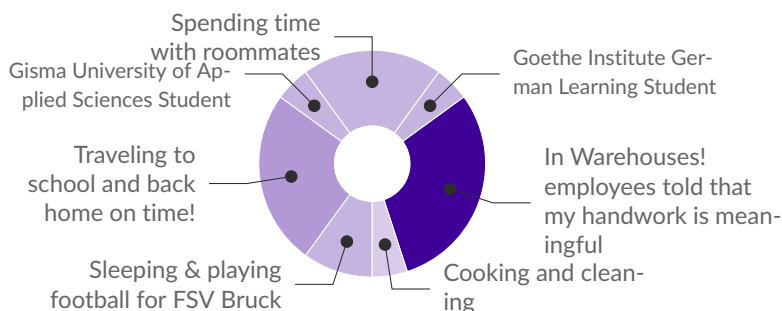

Lukenya Primary School

Jan 2009 – Nov 2020

Machakos, Kenya

- I conducted my first learning experience in this institution.
- I was able to learn how to communicate effectively using English language and Swahili language.
- Was exposed to various team building activities and self work activities.
- Was taught simple life morals and appropriate behaviors to implement to age mates, adults and parents.

A DAY OF MY LIFE

LIFE PHILOSOPHY

"With the power of God, Hard work never goes unrewarded."

MY ACHIEVEMENTS.
